[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 21.

EASTERN STATES.

Reception of Alexis.

NEW YORK, Nov. 21.—When the reception steamer *Mary Rowell* steamed up along side the *Svetland*, Minister Catoonzy and the Russian Consul General Dodisco, with their Secretaries, went on board to inform the Grand Duke that the Reception Committee awaited his arrival on board the *Rowell* to tender him hospitalities. The Duke immediately boarded the *Rowell*. He was received by Gen. Aspinwall, and the Executive Committee formed in line on the lower deck while the Duke passed through to the upper saloon. Arriving there, he was received by the Reception Committee, Gen. J. A. Dix delivering the address of welcome, as follows:

"*Your Royal Highness*: The citizens of New York are glad to welcome you to the United States. We are glad to welcome one who represents His Imperial Highness the Czar of Russia. We are glad to welcome a representative of the Power for which we have so much respect, kind feeling and confidence. We are not so old as European nations, as our civilization dates back but one hundred years; but among our institutions and customs you will find many things to admire and carry back to your own country. We are glad that you are here to carry back to His Imperial Highness, your father, the well wishes of this Government. Again I say, welcome to our shores."

The number of military in line was at least 10,000. The Twenty-second and Eleventh Regiments marched on either side of the Grand Duke's carriage as a guard of honor. The ride of the Prince from the Battery to Union Square was one continued ovation. Cheer rose upon cheer. Handkerchiefs fluttered from delicate fingers. The shout that was taken up at the Battery was rolled in one huge volume to the Clarendon, and the repeated bows of the Prince and his smiling face showed that he keenly appreciated the great honors showered upon him. As the procession arrived at the grand stand on Union Square, ladies and gentlemen rose en *masse* and gave Alexis a perfect storm of applause. To this he responded with genuine feeling, and rising in his carriage, took off his hat, bowing right and left. The head of the procession soon reached the Clarendon Hotel. Space having been made for the Duke he alighted and entered. A few moments after he came upon the balcony accompanied by his staff, and reviewed the troops marching past by companies, each regiment presenting arms as it passed under the balcony.

The Ninth Regiment Band of one hundred pieces, led by Carl Bergmann, will serenade the Duke in front of the Clarendon at 11 o'clock to-night.

To-morrow the Duke will go to Washington to pay his respects to the President. The New Jersey Railroad Company have two splendid drawing room cars in their depot which they will tender the Duke and suite for the trip.

Frauds in Brooklyn.

It is stated that facts are ascertained that heavy frauds in the Brooklyn City Treasury have been perpetrated by a Ring, by which some $240,000 have been illegally drawn by the Fire Commissioners.

There are rumors that James M. Sweeny, brother of Peter B. Sweeny, has fled to Europe. Evidence is in the hands of Charles O'Conor of frauds committed by him in connection with Tweed and others.

Murderer Executed.

AKRON (Ohio), Nov. 21.—John H. Hunter, who murdered Mr. and Mrs. Targoit, at Richart, Ohio, on the 21st of May, was hanged to-day. Hunter went from Gratoit county, Michigan, to renew an engagement with Chloe Targett, and on the refusal of the parents to permit him to enter the house, shot and killed both and tried to kill Chloe. Since his incarceration he has feigned insanity, but physicians declared him sane. He tried to commit suicide yesterday, but was discovered and prevented. He has refused all sustenance since Monday last. He was entirely unnerved, and had to be supported to the scaffold. He made a rambling speech, denying premeditation of murder.

Boiler Explosion.

TERRE HAUTE, Nov. 21.—The boiler of Crabb's flouring mill at Lincoln, Indiana, exploded and demolished the mill and an adjoining planing mill. One man was killed and several others severely hurt.

Georgia Affairs.

ATLANTA, Nov. 21.—Gov. Conley has signed the bill ordering a special election to fill the vacancy created by the resignation of Governor Bullock.

WASHINGTON CITY.

Treasury Report.

WASHINGTON, Nov. 21.—Treasurer Spinner in his annual report complains of the increasing delay on the part of some of the banks in making returns and payment on duty. He recommends that a per centage of such duty be added for every ten days delay after one month allowed by law.

Spinner reports the receipts for the fiscal year, including a balance of $1,405,014 71 in the treasury June 30, 1870, as $980,904,349; expenditures, $870,086,872; balance in the treasury June 30th, 1871, $109,917,477. The total number of National Banks June 20, 1871, was one thousand eight hundred and thirty-nine.

General Francis A. Walker, who, was today appointed Commissioner of Indian Affairs, will by the designation of the Secretary of the Interior continue to act as Superintendent of the census until its completion.

The Commissioner of Internal Revenue rules that the principal and interest of new bonds are exempt from taxation in any form, and that the interest need not be included in the amount upon which dividend or other taxes are required to be paid.

The Superintendent of the mounted recruits service is ordered to forward all available recruits to the 5th Cavalry, which is under general orders and assigned to duty in Arizona.

BY ATLANTIC CABLE.

English News.

LONDON, Nov. 21.—The Magistrates at Torquay have refused the application for bail in the case of John Gribble, Secretary of the Total Abstinence Society, who publicly accused the Queen of intoxication.

It is said that the Dublin jury which acquitted Kelly, charged with the murder of Constable Talbot, intend to prosecute the London *Times* for libel.

The bark *Charles*, belonging to Aberdeen, is reported wrecked and six of the crew drowned.

A telegram from Hongkong says that the ship *Reese*, Captain Smith, from Foo Chow for New York, was lost on a reef off the Paracels Islands, in China, and the captain and four of the crew drowned.

German Affairs.

BERLIN, Nov. 21.—In Parliament to-day, on the second reading of the Navy Estimates Bill, Minister Von Roon declared that it was the purpose of the Imperial Government to establish a naval power only of rank. The bill provided that the pay of all officials in the navy shall be raised sixteen per cent.

Spanish Affairs.

MADRID, Nov. 21.—Senor Dobles has been nominated to the Ministry of Foreign Affairs.

The civil government of Havana has been suspended.

From Rome.

ROME, Nov. 21.—King Victor Emanuel made an entry into Rome to-day and was met at the gates by the heir apparent, Prince Humbert, and Ministers of the crown and a large body of the National Guard. The city populace filled the streets in great numbers, greeting the King with earnest enthusiasm during his progress to the Quirinal, where he has taken up his residence.

The Alabama.

LONDON, Nov. 21.—A special from Versailles to the *Standard* says that the Commissioners on the arbitration of the *Alabama* claims will assemble at Geneva on the 12th December. Sittings will continue all winter. About five hundred cases will be presented for the consideration of the Commission.

CUBA.

From Havana.

HAVANA, Nov. 21.—The Swedish Consul, Nenninger, who has been expelled from Cuba, sailed yesterday for Baltimore in company with his son. The Nenningers are both Americans, notwithstanding the fact that the father held office as Swedish Consul.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 22.—Prof. Knowlton, of the Rincon School, having had his revolver stolen at the entertainment given by the schools in aid of the Chicago relief fund, and had thirteen dollars charged as expenses and taken out of the fund to reimburse him for the loss, the Board of Education last evening passed a resolution forbidding teachers in public schools hereafter carrying deadly weapons in school hours in pain of forfeiture of their position.

Mary Farly was brought to the calaboose last night drunk, with a piece of her skull missing, it having been chopped out with an ax by another woman.

Orders having been received for the United States steamer *California* to proceed to Valparaiso, the grand ball on board of her has been indefinitely postponed.

Governor Safford, of Arizona, has published a very lengthy and exhaustive review of the Apache question in the *Alta* this morning. He condemns Colyer's pretended peace as a murderous fraud, placing the white settlers wholly at the mercy of the savages, who thereby resort to the reservations to escape punishment, and use them as points from which to carry on their raids with the infantry. He gives a long list of murders and robberies committed by the Apaches since their pretended peace negotiations with Colyer. Cites instances where the plunder of murdered citizens is found in the possession of the Apaches on the reservation, and gives his opinion that there will be no peace until General Crook's policy has been fully carried out, and friendly tribes united against the hostile Apaches armed and enabled to protect themselves. The Apaches themselves must be reduced to submission and placed on reservations, and kept there all the time. He thinks it would be cheaper for the Government to board the entire Apache nation at first class hotels than to pursue the line of policy marked out by Colyer.

OREGON.

Patrick Walch is missing from Salem, and his friends are anxious thereat.

R. A. Ray's store at Eola was entered the other night and robbed of a considerable amount of goods.

William Sheppard has been arrested at Salem on the charge of being concerned in the recent robbery at Gervais, and has been held to answer in $500.

LATEST NEWS CONDENSATIONS.

The famous *Kearsarge* war steamer has been put into the dock at Mare Island.

Later returns from the Mississippi election show that the Republicans have carried the State by a majority of 15,000. The same party has succeeded in Kansas by increased majorities.

The weather is already very severe in some of the Utah mining districts. At one point the snow is four feet deep, and the drifts are so great that it is found almost impossible to get provisions to the miners.

A Chicago paper says: "The ora has come of plain and wholesome food, plain and decent clothes, plain and honest ways. Vanity must be crucified. Amusements must be largely home-made and inexpensive."

Senator Sherman on being questioned concerning the report of possible defection among the Republicans of Ohio on the subject of the United States Senatorship, says there is not a Republican elected to the State Legislature whom he would suspect of making combinations with Democrats to defeat a Republican nomination.

The Indianapolis *Sentinel*, which has heretofore advocated the nomination of Thomas A. Hendricks for President, has taken a "new departure" on its own hook, and comes out in favor of Colonel Thos. A. Scott. The Philadelphia *Press* puts a damper upon this proposition by declaring that Colonel Scott will have nothing to do with the party that has indorsed rebellion and repudiation and is covered all over with the sins of Tammany.

The bonded indebtedness of Louisville is $7,050,5000, and her Councilmen propose to add to that trifling amount by subscribing $6,000,000 more for railroads, including $1,200,000 for a road from Cincinnati to Chattanooga. A bonded debt of nearly fourteen millions, to say nothing of a heavy and increasing floating debt, ought to entitle a little city of one hundred thousand inhabitants to the sympathy of her neighbors—even of Chicago.

The Chicago Workmen.

The impression seems to be prevailing that many people of Chicago are disinclined to work and prefer to live on charity. This is clearly a slander on the brave spirit of Chicago workmen. Vagabonds there may be who will not work, but they are not working people and never were. They who have intimate acquaintance with honest American workmen know how reluctant they are to accept charity, and that they will submit to any obligation so humiliating only so long as unavoidable hard necessity compels. The Chicago *Tribune* says:

The universal testimony of all those engaged in administering to the public wants is that the working-men, as a class, turn to their work and to providing for themselves and their wives and children as soon as it is possible for them to do so. Insure their shelter, though it be in a barrack, and food for immediate needs, which the wife or child can get by waiting in the line at the dispensing depot—and the head of the family goes off at once to seek for labor which will enable him and his to become once more independent and self-sustaining. The moment he is able to do so he declines further reliance on public relief, and in some districts the demand has fallen off a third, a half, and even two-thirds during the last week. The great mass of those among us who live by the labor of their hands have a commendable pride in being independent and self-supporting, and that high principle is bearing good fruit at this most trying time; and if Chicago shall ever recover her prosperity it will be owing as much to the energy and character of her laboring people as to any other class. There are none among us with a higher sense of honor on the question of relief, a clearer idea of the condition and necessities of the city, or a more determined will to do their part like men, than the Chicago working-men.

A GOOD DAUGHTER.—There are other ministers of love more conspicuous than she, but none in whom a gentler, lovelier spirit dwells, and none to which the heart's warm requitals more joyfully respond. She is the steady light of her father's house. Her idea is indissolubly connected with that of his fireside. She is his morning sunlight and evening star. The grace, vivacity and tenderness of her sex have their place in the mighty sway which she holds over his spirit. She is the pride and ornament of his hospitality, and the gentle nurse in his sickness.

"Women, wake up," exclaims the *Revolution*, and an indolent rural editor adds: "Yes, and d—n it, turn out, and make a fire, and put the tea-kettle on."

The Holly Water Works.

New testimonials are continually appearing respecting the efficiency of the Holly water system. The Lockport (N. Y.) *Journal* of the 25th ult. says that citizens of that place know the value of these works from experience, and regard them as indispensable. It adds: "The actual loss by fire in this city during the eight years the Holly works have been in operation, have not been one-twentieth the amount destroyed during the eight previous years, or during any eight consecutive years going back twenty years before their establishment."

The Peoria (Ill.) *Transcript* of the 21st ult. has an article on the Holly system, and discusses its efficiency in connection with the Chicago conflagration. At Peoria these works have been in operation for some time and give perfect satisfaction. Speaking from experience, therefore, the *Transcript* commends the system to Chicago in the following strong article:

One of the most important things which Chicago will be called upon to do, in connection with the rebuilding of that city, will be the securing of a more efficient and perfect protection against fire. There is no question in the mind of anybody that her present system was wholly inadequate to her needs, and was defective and undisciplined.

Chicago ought now, when there is a most excellent opportunity for making the change, to discard her steam fire engines and substitute the Holly system. She has it in her power to establish, at a reasonable cost, one of the most complete and perfect systems of protection against fire in the world.

Chicago has a large lake and river frontage. She should divide the city up into convenient fire districts, as many or as few as she shall deem advisable, and at convenient points on the lake and river locate Holly pumping works. These works can be put in complete, house and all, for a sum not exceeding $30,000 for each district, providing the district be not too large. Six inch and four inch water mains should be laid through the principal streets, to be used exclusively for the Holly pumps. The present water works of Chicago should be devoted to furnishing water for domestic and manufacturing purposes only. Each fire district should be maintained separate from the others, but it should be arranged so that in case of need, from the branching of the machinery of either of the pumping works, they could all be connected together.

Every new building to go up in Chicago, and all other buildings of importance now up, should have a four inch water pipe leading up to each story, with hydrants on each floor, to which hose could be immediately attached in case of fire. In some of the Eastern cities they are making use of a patent arrangement, consisting of a pipe bored with small holes, running clear around each apartment, so that at will the room can almost instantly be filled with a complete spray of water in which a fire could not live for a moment.

A system of Holly pumps, such as we have indicated, would enable Chicago to do away with her present enormously expensive fire department. Each fire district could have its hand hose carriages with just men and hose enough to reach to any ordinary distance. Then one or more carriages, drawn by horses, should be maintained to carry surplus hose to provide hose companies who may be short or who may have burst their own. Double hydrants should be placed on the corners of every block. The larger water mains need not run on only every other street, leaving the smaller mains to branch off at the cross streets and supply the alternate ones.

The advantage of this system can be seen at a glance. When a fire breaks out in one district, the other districts are left with their protection intact. Had such a system been in operation at the late fire, the conflagration could not have extended beyond a few blocks. The territory in front of the fire could have all been completely flooded long before the flames could have reached it, and so their progress could have been stayed. Every property-holder, armed with his own private hose, could have attended to his own building in advance of the fire, putting out sparks and flying brands, and keeping his premises thoroughly saturated.

From a two years' experience of the Holly system in Peoria, we are thoroughly capable of speaking of its merits. No conflagration can obtain any headway in its presence. Steam can be raised and a fire pressure reached by the time hose companies arrive at the locality of the fire, and are ready to attach to the fire hydrants.

We may mention, in this connection, that soon after Peoria put in her Holly system, a delegation from the Chicago Board of Public Works visited us and examined them. The exhibition we gave them was the poorest and least satisfactory we ever gave to any visiting committee. In fact, it was not worthy the name. The fire pressure was not put on. Yet the delegation were highly pleased, and then broached the

The Daily Oregonian.

THURSDAY MORNING, NOV. 23, 1871.

Trumbull for President.

According to the Washington *Patriot*, a paper which claims to be a sort of "national organ" of the Democratic party, a meeting of "conservative" men without distinction of party was held at Washington City a few days ago for the purpose of taking measures to bring out Senator Trumbull for President. The *Patriot* says that the movement will be followed up, and an intimation is given that an attempt will be made to induce the Democrats to make no nomination, but to throw their whole strength for Mr. Trumbull.

This is simply an attempt to carry out the Missouri *Republican's* proposition. The idea of those who are participating in the movement at Washington is to make Mr. Trumbull the candidate of the proposed coalition of Democrats and disaffected Republicans. There is little probability that Mr. Trumbull would accept. He was, in the Republican Convention of Illinois a few weeks ago, and wrote the platform that was adopted on that occasion. One of the resolutions declared that the Republican party was competent to introduce and carry out any reforms that might be needed, and that there was no need of hunting for another party to do this service. No doubt this use of Mr. Trumbull's name by the proposed coalition is without his consent.

If, however, Mr. Trumbull should join this movement and accept the position of standard-bearer under it, he could not bring it as much strength from Republicans as he would lose by the defection and disgust of the Democrats, and he would be terribly beaten. He is beyond question a man of purity and integrity, but he has none of the parts of a popular leader. In his way he is as cold and unsympathizing as Charles Sumner himself. He is hard, frigid and technical, and rather fond of differing with the Senate, apparently for the reason that in this way he can best display a certain kind of independence of judgment and intellectual superiority which he affects. The same reason makes him fond of sedulously [illegible] from his party on a great many questions. These peculiarities are not in his case inconsistent with honesty and sincerity; they indicate a critic and a sort of quibbling, cold, or cynical disposition. Some have talked of Mr. Trumbull as a Republican candidate for President, but this is not much thought of now. He lacks nearly every element of character or reputation which attracts popular support or elicits popular enthusiasm, and his nomination by any party would throw a cold chill over it which would extinguish all ardor and all hope of success.

A Contrast.

A Democratic contemporary hopes to point a moral by talking of the fate of those whom the great surge of political excitement carried into power in 1861. Its theory is that they were a wicked body of men who took the Government out of Democratic hands, and it asks, "where are they now?" And it enumerates these men one after another over whom the grave has closed, beginning with President Lincoln and attempts to show that thus it fares always with the wicked.

Now there is another side to these reminiscences. Suppose we ask what has become of the men who betrayed the country into the hands of its enemies? There was President Buchanan; who reverses his memory? There was Vice President Breckinridge, who, though still young, is dead to the world, and lives only to be execrated. Who knows what has become of Howell Cobb, and who cares? Floyd, who administered the War Department, is the shadow of a name, and others of the Buchanan Cabinet are not even shadows. These men had the nation in their hands at a critical moment in its history, and could have moulded it to their will. They betrayed it, and are forgotten. But the man chosen by Providence to thwart their treachery, not looked to at the time for great deeds, but destined for the great work, who came to the fore without design on his part, and bore himself under trial with a forbearance and modesty which stands as a solitary example in all history, finished his work, and became immortal in the memory of mankind. They are no more; but he lives, and "will live in the hearts of ages, while marble and bronze shall endure; and when marble and bronze have perished, will still live, so long as men shall reverence law, and honor patriotism, and love liberty."

At a recent Cabinet meeting, according to a report in the New York *Tribune*, the President alluded to misrepresentations which have been made regarding his action toward the South. He said that he was determined to protect the lives and property of citizens of the South, and hoped the civil authorities in the different Southern States would be able to carry on the duties devolved upon them, without Federal interference. If, however, they could not repress the acts of violence so frequently repeated of late, he should not hesitate to avail himself of every privilege conferred by Congressional enactments. In carrying out this pledge he will be heartily sustained by the people.

In 1861 statistics of the Connecticut savings banks showed 97,144 depositors, with deposits amounting to $20,791,856. The statement of their condition for 1871, just published, shows 178,067 depositors, with deposits aggregating $55,297,705. An equally satisfactory exhibit appears in many other States. Such facts show that the condition of the laboring classes is better than at any antecedent time in our history. Croakers cannot persuade prosperous people that they are poor and growing poorer. Which is so much the worse for so-called "Democracy," which delights in this sort of thing.

That the Democratic leaders are making no headway in placing the party on the road to success in the next Presidential election is clear enough. "On the contrary, quite the reverse," is the uniform verdict of those who observe the course of things. The truth is, they have succeeded in doing nothing to convince the people that the party should be again trusted with power; but they do a variety of things proving only it should not. They make no point in its favor before the country either as to men or principles.

The Superintendent of Public Instruction of California gives the following educational statistics of that State: Number of school districts, 1,326; school-houses, 1,250; teachers—men, 320; women, 1,232; total, 2,052; pupils, 91,322; average attendance, 64,286. The value of school property is $3,362,580 81. The increase since 1869 is as follows: Districts, 132; school-houses, 196; pupils, 17,598; average attendance, 14,435; value of school property, $665,875 06. This is a good showing for a new State.

A German Paper on the Democratic Press.

The *Anzeiger*, a German paper published at Washington City, has the following editorial on the "atrocious accusations of the Democratic press against the Republican party":

The Democratic press, and among those the *Patriot* of this city, hurls the most flagrant accusations against the Republican administration; yea, the *Patriot* in its frenzy, overstepping the bounds of all moderation, considers even the conflagration and devastation of Chicago and the President a just punishment of Providence, a scourge of the corruption of the Republic; not content with this it denounces constitutional government under the Republican administration, that it implies nothing else but the subversion of civil liberty, theft, embezzlement and swindle. It is indeed distasteful to answer such crack-brained villifications; nevertheless, there are many who, with the natural inborn suspicion of man, might lay more or less stress upon these ridiculous charges.

Let us therefore examine the first charge, "Order Reigns in Warsaw;" that signifies military despotism reigns in the South, the *habeas corpus* act, the bulwark of civil liberty, has been suspended by the President, and martial law proclaimed.

The falsity of this assertion is evidenced, in the first place, that no martial law has been declared; that rather the Federal Courts institute judicial inquiry against these lawless and criminal bands of Ku-klux; that further, as the sheriffs, without jeopardizing their own lives, are not able to make a single arrest, the sheriffs have been empowered by law to make use of the military as a posse *comitatus* in order to enforce the law and arrest these criminals. An organized resistance of these Ku-klux against the law and Government falls, according to the law of the land, within the term of rebellion.

The Constitution, as well as the act of Congress of 1870, authorizes under such forcible opposition to law and order the President to suspend the *habeas corpus* act as being a necessary measure for the safety of the country. The Democratic press, were it sincere in its expressions for the welfare of the country, should rather direct its weapons against these heinous outrages of the Ku-klux bands than turn them against the lawful necessary measures for the suppression of murder and robbery.

Another accusation against the Republican party is the barbarous disfranchisement and abuse of the South. The rebellion of the South has cost this Republic a million of lives and thousands of millions of dollars. Instead that the Republican party, in power, shot or hung these criminal leaders of the rebellion, it exempted them from all real punishment, aye, it conferred to every rebel the right to vote and excluded only those leaders from holding offices who had previously taken the oath of allegiance to the Republic. All the Southern States had been admitted into the Union notwithstanding their traitorous secession from it. Glance at Paris, and reflect for a moment how the Government of Versailles dealt with the rebels of the Commune; it condemned the leaders, indiscriminately, to death, transported thousands to sickly islands. In fact, if the Republican party is to be subjected to any accusations whatsoever, it is of showing too much humanity toward the crime of rebellion.

Concerning the charge of theft, swindle and corruption against the Republican party with one word, by the fact we tear asunder the cobweb of calumnies of the Democracy in the following: Since 1861 the Republican party has been at the helm of Government. In the Treasury of the United States thousands of millions have been received and disbursed, and with the one insignificant embezzlement of $8,000; not a single dollar has been stolen. The leader of the Democracy in New York city, Tweed, and his Democratic confederates, have, however, within two and a half years, swindled and robbed the metropolis of New York out of fifty millions of dollars; their reward is not the Penitentiary, nor, on the contrary, Democracy nominates this arch-rogue, Tweed, as their Senator.

Theft, as in the Hodge case, the Republican party considers a Penitentiary offence; the Democracy, however, not alone honors, but also confers dignity and preferment upon the scoundrels.

Chicago's Present Condition.

It is stated that the Chicago Relief Society is aiding about 60,000 persons. Up to the 8th inst. the society had received about $3,460,000 from abroad. A report says:

The most pressing need for which the Society has to provide is shelter for the homeless thousands during the coming winter. To this end it is aiding those burned out to erect small but comfortable houses on the sites of their former dwellings, or on leased ground, which they may live in not only during the winter, but also next summer, so as to be able to go to work on the rebuilding of the city. Four thousand of these houses have already been built, and shelter about 20,000 people. These with the number expected to be built, will shelter altogether 35,000 people. The cost of these temporary buildings, with some necessary furniture, will be about $1,200,000, leaving $2,300,000 to meet the demands for food, clothing fuel and general expenses until the completion of the work, which cannot possibly end with the present winter.

The people of Nevada City, California, have organized a company to carry freight by wagons between that place and Sacramento. They are driven to this by the high freights on the Central Pacific Railroad, and expect to save fifty per cent. of the present cost of transportation.

Governor Grover has signed the memorial in behalf of the Portland and Salt Lake Railroad. This shows the popularity of the measure.

Everybody says S. L. Stone is selling the best bit and two bit cigars in the city.

I say, mister, where's the Postoffice? Why, it is next door to S. L. Stone's cigar and tobacco store.

REMARKABLE CURE OF THE DEPUTY JAILER OF MULTNOMAH COUNTY JAIL.

"The work goes bravely on." Case No. 3,240—Second series.

CITY JAIL, PORTLAND, Oregon, June 7, 1871.

A. M. LOSEKA & Co.: I was attacked with a severe case of rheumatism. It was in my thighs, hips, fingers, shoulder blade; indeed in all the joints of my body. I suffered great pain and anguish. I was attended by a regular physician, but with no effect. I was induced to try your Oak Wood Remedy, and it immediately cured me up. I consider it, from my experience, the best remedy for rheumatism known.

ALFRED F. TURNER, Deputy Jailer.

This is to certify that the above statement is correct to my own knowledge. JOHN P. WARD, Jailer, o23tf

PERKINS & HOUSE'S SAFETY LAMPS

It is perfectly non-explosive. The light is better than is produced by any other lamp. I believe it to be true economy to view of the safety, the quality and quantity of the light produced, and the durability of this lamp, to throw away all other kinds and use this only.

PROF. W. S. CLARK,
Pres't Mass Agricultural College.

I know it to be by far the best light we have ever used in our family. I know of nothing that can compare with it. I prefer it to any gas burner I have ever seen. For safety, for economy, and for the perfection of the light, it deserves to come into universal use.

REV. W. S. TYLER,
Professor in Amherst College.

AN UNPREJUDICED PHYSICIAN

INTERVIEWED.

Bold Opinions Truly Expressed.

POPOLAPITA IS NOT ALWAYS A proof of death, every newspaper man knows that, but its virtues are engineered into temporary popularity that have no intrinsic merit whatever. It is an easy thing to make sweeping assertions and now then a dead cert in the columns of the public press. But there is a class of sagacious and thoughtful birds not to be caught with chaff, like Captain Cuttle, they want "an opinion as is an opinion," in other words, the judgment of competent and disinterested authority, as a basis for their own.

Several of these cautious individuals having done us the honor to invite an expression of opinion in these columns on the properties of the much talked of Tonic known as PLANTATION BITTERS, we have taken the pains to obtain from a distinguished physician whose ability and integrity of purpose no one will venture to question, what may fairly be deemed a conclusive answer to the questions of our correspondents. Dr. Wm. Kennaly Whitmarsh, as a surgeon, pathologist and chemist, has few superiors west of the Alleghanies, and the following conversation which occurred a few days ago between that gentleman and one of our staff, is offered, without comment, for the information of "whom it may concern:"

REPORTER.—Have you any objection, to state your views in relation to a medicinal preparation which has obtained great celebrity in this country? The object is to ascertain whether the reputation is deserved or not.

DR. WHITMARSH.—If I know anything about the article, I'll tell you what I think of it. How is it named?

REPORTER.—Plantation Bitters.

DR. WHITMARSH.—Well, it is a wholesome vegetable tonic.

REPORTER.—Anything else?

WHITMARSH.—Yes, it has a mild aperient property, and produces a salutary effect upon the liver when that organ is diseased.

REPORTER.—It contains alcohol I understand. Santa Croix Rum.

DR. WHITMARSH.—Of course it contains a diffusive stimulant. If it did not its medicinal ingredients would be comparatively inert. They are rendered operative by the alcoholic principle.

REPORTER.—Supposing that theory to be correct, is Santa Croix Rum a good article for that purpose?

DR. WHITMARSH.—The best I think. It is more nutritious and far less exciting than the spirits made from grapes or grain.

REPORTER.—But are stimulants really necessary at all in medical treatment?

DR. WHITMARSH.—Sir, if you had ever practiced medicine you would not ask the question. They are an essential portion of the *materia medica*. Every intelligent member of the profession knows that. The physician who denies it is either a hypocrite or a fool.

REPORTER.—Do you consider a medicated stimulant like the PLANTATION BITTERS preferable to simple alcohol? In other words, would the Santa Croix Rum be as useful without the other ingredients as with them?

DR. WHITMARSH.—Certainly not. Among those ingredients are Extract of Dandelion, one of the finest antibilious medicines I know of, Calisaya Bark, of all tonics the best; and Chamomile, an admirable stomachic. The remedial powers of these curatives is increased probably ten-fold by the nutritive stimulant with which they are incorporated.

REPORTER.—You seem to have a high opinion of the Bitters.

DR. WHITMARSH.—I simply state facts, sir. You must draw your own conclusions.

REPORTER.—May I ask if you ever prescribed PLANTATION BITTERS for your patients?

DR. WHITMARSH.—I do, frequently. All that I have said to you is founded on my own experience. I never make positive statements on unsubstantial grounds.

REPORTER.—I am sure of that. Excuse me for having trespassed so long on your valuable time. Good evening.

We presume the correspondents who have addressed us on the subject of PLANTATION BITTERS, will consider their questions satisfactorily answered by the remarks of Dr. Whitmarsh.

THURSDAY MORNING, NOV. 23, 1871.

CITY.

THE LATE STORM.

STATEMENTS CORRECTED.

TO THE EDITOR OF THE OREGONIAN:

In your issues of the 16th and 17th inst., we find the following statements, which we clip in four different items, concerning the storm and shipping at Astoria and Columbia bar, viz:

"A gentleman who came up last evening from Astoria by the *John L. Stephens*, informs us that the storm of Sunday was the severest known for many years. The water was driven in with the force of the storm so as to submerge the wharves and all the lower streets of the town."

That is far from correct, and *not one* wharf was submerged, or within two feet of being so. Only about 150 feet of the lower end of *one street* was submerged. The tide and swash covered that much of one street about one foot deep. But that street so submerged is in a state of nature—never having been raised by grading or improvement. The water was on that street for about two hours.

Next—"We put it up that the *Stephens* has been simply standing off the mouth of the river on account of a very rough bar."

This theory of course was incorrect. Subsequent facts show that the *Stephens* did not stand "off the mouth of the river" at all.

Next—"She arrived off the bar on Tuesday, but the Captain would not attempt the dangers of the bar, which was fearfully rough, until yesterday morning when he steamed in, safely, though the bar was yet exceedingly rough."

This statement, though intended, no doubt, to be correct, is very far from telling the truth. For the fact is the *Stephens* arrived off Tillamook Head—40 miles south of Columbia bar—on Tuesday forenoon. Neither the Captain or any one on the ship saw the bar, or within 20 miles of it that day; and whether it was "fearfully rough" or perfectly smooth that day, no one on the ship knew.

But the next day the *Stephens* came to the bar, and without further delay of any kind came in directly; and the *Captain* and others reported at Astoria, that *the bar was not as rough* as the sea outside—which is easily understood by mariners, as a strong flood tide was running then.

Finally, as bearing upon the rough bar question, your commercial column says, "The steamer *Ajax* had not crossed the bar last night." The inference here is that the storm and rough weather had deterred the *Ajax* from going to sea from Astoria. That was incorrect. The *Ajax* had gone to sea that "night" referred to in the item, but of course the writer of the item did not know it.

The fact was the *Ajax* left Portland Monday afternoon and arrived at Astoria Wednesday morning—having taken on 200 tons of freight at St. Helens, and been otherwise detained in the Columbia river; but she was not detained on bar, or a minute, at Astoria by storm or rough bar. The interests of commerce of the Columbia river, I am to require the above explanation and state of facts.

And as such, and that they may possibly go where the incorrect statements have gone, I trust that you will give them a conspicuous insertion in your journal. The *Bulletin's* account of the storm here is perfectly sensational. Very truly yours, W. W. PARKER.

DISTRICT COURT AT VANCOUVER.—A Vancouver correspondent writes: "The District Court, now in session here, has got through with more than half the calendar. A number of cases have been disposed of, among the most important of which is the Bird case. There were two cases up yesterday upon indictment for cutting timber upon Government lands, which resulted in acquittal, the law in such cases being practically obsolete and inoperative, the cutting of wood for domestic purposes constituting no offence. The most important case upon the docket—the Kalama title—was passed over so rapidly that it surprised the uninitiated. It was patent, however, to the bystanders that there was a nut in it to crack, the meat of which could not be got at this side of Washington City. A nice game of bluff was played as a blind to the importance of the case. But it is understood that for the benefit of all interested, the proceedings, together with the briefs, etc., in the case, will be published, so that the merits of the claims of the respective parties may be better understood.

OAR OFF THE TRACK—TRAIN DELAYED.—The down express train yesterday was delayed for two or three hours by a tender getting off the track, or rather into a smash on the trunk. One of the axles to a locomotive used to haul a gravel train between Harrisburg and Eugene, had broken down in consequence of the spreading of the rails. The rear truck wheels were smashed. The rear end of the tender, however, was lifted on to a flat car, and the locomotive started with things in that fix to run down to the machine shops. When just above Oregon City, while rounding a short curve, the fore trucks of the tender jumped the track, flawed around crossways, and were badly shattered. This accident delayed the down express train till half past one o'clock P. M. The mails were not received here till about three o'clock. No other damage of consequence was done.

TEMPERANCE LECTURE.—The festival to be held at Good Templars' Hall, corner of Front and Alder streets, on Friday evening next, will be for the purpose of raising funds towards the erection of a Good Templars' Hall, in this city. This object is a worthy one, and should meet the approval of all good citizens. The Lodges of this city are poor and require the assistance of outsiders. Let every one who has twenty-five cents to spare—which is the price of admission—go there on Friday evening next and aid in so praiseworthy and laudable an object. The entertainment, so far as we can learn, will be good and select. Singing will form an important feature, and sections of fancy articles and other interesting business transactions, will lend their aid to make the festival agreeable and attractive. Every one is respectfully invited

HIGH TIDE—FEARFUL ADVENTURE.—A gentleman who was at Tillamook during the late storm—when the *John L. Stephens* had her rough trip—says the tide rose higher than was ever known, the water coming up in the bay to seventeen feet and some inches above low water mark. A couple of men, one a sailor, had gone out in a small boat before the storm came on, for the purpose of going to one of the neighboring inlets. The storm coming on they had to throw their freight overboard, and turn about for the harbor. Night came on before they got in and they had to stay outside all night, neither of them having any expectation of ever getting ashore alive. Fortunately, however, they made the harbor on the following day, though in a state of great exhaustion.

PASSENGERS FOR CALIFORNIA.—The steamship *Orizimme* sailed last evening for San Francisco, taking the following named passengers: B F Stewart, S Atkinson, C H Hopkins, R Worth, H T Berman, A Savage, A S Aikin, Mrs Sexton, Mrs Rosenthal, Mrs Wakefield and sister, H C Rackney, Wm H Porter, Mrs M Greenwall, Mrs H J Cornwall and 4 children, Mrs B Brison, Lt Gilford, T J Moore, C Walker, Mrs Case and 2 daughters, W S Treble, E G Farnham, R Miller, J Miller, T J Spratt, H Roy, M McNulty, Mrs Rade, Mrs Ash; Wells, Fargo & Co's messenger and 8 in the steerage.

RUNAWAY AND MAN INJURED.—The team of a countryman whose name we failed to learn, ran away on Front street yesterday afternoon. The driver was thrown out near the start, and had one of his legs broken, beside having the flesh of the calf badly torn. He was taken into a shop hard by where Dr. Cooper rendered such surgical aid as was necessary. The team went up Front, Yamhill and through several other of the "principal streets," doing some damage not only to themselves and the wagon, but to awning posts and other things on the side-walks.

THE SPENCER CONVICTED.—The jury in the case of the State vs. Foster, indicted for seduction, returned a verdict yesterday of "guilty as charged in the indictment," having been out only about half an hour. The court set Saturday for pronouncing sentence.

THE SKATING RINK.—We are informed that this institution will be open to night, when the gliders will have a clean, smooth floor to go it on. There will be great sport, no doubt, especially since the fun hand will go there.

SICK.—Mr. C. Bills has been confined to his room for two or three days with severe inflammatory rheumatism, but we hear that he is now getting better.

STEAMER FOR PUGET SOUND.—The propeller *California* will sail for Olympia, Puget Sound ports and Victoria on Tuesday the 28th inst.

At S. L. Stone is closing out at cost his fancy goods, toys and willow ware, this is the last chance to buy cheap.

COMMON COUNCIL.

REGULAR MEETING, NOV. 22, 1871.

Present—His Honor Mayor Wasserman, and Councilmen Besser, Burton, Caywood, Combs, Congle, Hallock and Moffett.

PETITIONS.

From Jacob Kamm, representing that the action of the Council in the matter of the extension of Main street did him great damage, and asking that it be reconsidered with a view to a proper adjustment of damages. The petition was placed on file.

From Theodore Burmester and 240 others, representing that piles had been driven within the street line at the ferry landing at the foot of Stark street, thus destroying the rights of the public, to such street, and asking that the Council order the removal of the piles and the improvement of the street by grading and constructing plank sidewalks to low water mark. The petition was referred to the Committee on Landings and Wharves.

W. Davis for a building permit—granted.

E. W. Bryan, for a building permit—granted.

H. Weber, for the return of purchase money paid by him for two lots improperly sold by the Marshal for delinquent taxes. Referred to the Committee on Ways and Means.

A protest from Geo. H. Flanders and others against the proposed opening of B street. Placed on file.

A COMMUNICATION FROM THE CITY ATTORNEY was received, stating that he had brought suit, as instructed, against A. P. Dennison, to recover $11,000, with interest and attorney's fees; that the clause in the note agreeing to pay attorney's fees, in addition to legal interest, made the note usurious; that defendant had offered to pay the principal and legal interest. The Attorney advised the closing with the offer, and waited for instructions. The communication was placed on file.

CLAIMS AGAINST THE CITY.

The following bills were allowed, and ordered paid: Himes & Bachelder, printing blanks, $31 50; H. Cason, balance due on cistern, $225; C. H. Myers, plumbing, etc., $136 11; Henry L. Pittock, advertising, $10 22; W. H. Butts, street contract, $130 72; Clink & Johnson, street contract, $213 22.

RESOLUTIONS.

The following resolutions were adopted:

Authorizing the City Attorney to dismiss the suit and release the mortgage against A. P. Dennison upon the payment of the principal and legal interest of the note sued upon.

Directing the Surveyor to survey and report upon the extension of B street to intersect with B street in King's Addition, and thence to the western boundary of the city.

Instructing the Auditor to give notice of the improvement of Fourth street from Jefferson to G.

Instructing the Auditor to give notice of the improvement of Sixth street from Washington to Morrison.

Authorizing the Auditor to issue a warrant for the collection of delinquent street assessments.

Declaring that it is expedient to improve Second and North Second streets from Caruthers to its northern extremity by widening it to seventy feet, and cutting North Second straight through till it shall intersect North First, and directing the Surveyor to make maps, etc.

ROAD ACROSS PUBLIC LEVEE.

Mr. Hallock made inquiry if the committee had taken action in the matter of Mr. Knott's petition for leave to construct a road across the levee.

Mr. Burton replied in the negative.

Mr. Hallock thought some duration of the franchise granted should be fixed.

Mr. Congle moved that Mr. Knott have the use of the road for two years.

Mr. Moffett thought two years too long a period, and that the city might want to use the levee sooner than that.

Mr. Hallock was under the impression that Mr. Knott had not signified how long he might want the franchise; that he might not want it for so long a time; that the Council might have acted in the matter without sufficient consideration; and that the committee ought to confer with him and learn what he wants.

On Mr. Hallock's motion, the committee was instructed to consult with Mr. Knott, and to report what terms he desired to make.

THE CASE OF THE ABSENTING COUNCILMAN.

Mr. Mayor said that in the matter of Mr. Besser's right to a seat in the Council, he had found, upon consulting the charter, that his duties ceased with the act of calling the attention of the Council to the absence of the Councilman.

Mr. Hallock remarked that the right of Mr. Besser to a seat was a question which might come up any time. The Council has the right to say whether a member has a right to a seat. To dispose of the question, he would move that Mr. Besser's seat be declared vacant.

The motion was seconded by Mr. Congle.

Mr. Hallock said the Council derived its right from the Charter to judge of the qualifications of its members. He had no doubt of Mr. Besser's absence for six consecutive meetings, but there was a question in his mind whether to had been absent "six regular meetings" in the meaning of the Charter. The record showed that he had been absent from four meetings when a quorum was present, and from two meetings when there was no quorum—only a minority, which could not transact business. He then went on to argue that a meeting of the Council at which there was no quorum, was not in the contemplation of the Charter, a "regular meeting." This was the only question to be decided. If it be decided that a minority meeting is a regular meeting, then Mr. Besser's seat is vacant; if not, Mr. Besser is still clearly entitled to his seat.

Mr. Combs said he could not see why a minority meeting on the regular night was not a regular meeting. The minority met at the usual time, with power to send for absent members and to compel their attendance.

Mr. Hallock replied that the Charter gives the minority only the power to meet, adjourn from time to time and compel the attendance of absent members. This power was merely given to enable a minority to secure "regular meetings."

The question being taken on the motion to declare Mr. Besser's seat vacant, all present voted "nay," so it was lost and Besser's banner still waves.

The Council adjourned.

COURT PROCEEDINGS.

CIRCUIT COURT—UPTON, J.

WEDNESDAY, November 22.

State of Oregon vs John Wilson and D. Stimson; larceny from the person. Defendants sentenced to one year each in the Penitentiary.

State of Oregon vs Susan Ellensworth and John Brown; grand larceny. Defendant Susan Ellsworth entered plea of "not guilty."

State of Oregon vs J. C. Spencer; larceny by bailee. Defendant plead "not guilty."

State of Oregon vs Harry Keithly et al; grand larceny. Defendant Keithly arraigned and allowed until to-morrow morning to plead.

P. D. W. Hardenburg vs A. G. Marshall; judgment by default entered against defendant for $133 10.

J. C. Van Rensalaer vs J. P. O. Lownsdale et al; suit to quiet title. Default entered against adults, and guardians *ad litem* appointed for minors.

J. H. Sedlak vs J. P. O. Lownsdale et al; same as above.

P. Van Fridagh et al vs J. P. O. Lownsdale et al; same as above.

John Wilson vs J. P. O. Lownsdale et al; same as above.

W. W. Piper vs J. P. O. Lownsdale et al; same as above.

J. B. Price vs J. P. O. Lownsdale et al; same as above.

J. P. Walker vs J. P. O. Lownsdale et al; same as above.

W. Simon vs J. P. O. Lownsdale et al; same as above.

J. Kamm vs J. P. O. Lownsdale et al; same as above.

H. Folling vs J. P. O. Lownsdale et al; same as above.

S. Simon vs J. P. O. Lownsdale et al; same as above.

First Baptist Church et al vs J. P. O. Lownsdale et al; same as above.

Henry W. Corbett vs J. P. O. Lownsdale et al; same as above.

State of Oregon vs Charles H. Parker; grand larceny; defendant pleaded "not guilty."

Hannah Shepard vs C. L. Shepard; suit for divorce; default entered against defendant and cause referred to C. Beal, Esq., to take testimony and report findings of fact.

State of Oregon vs John Foster; seduction under promise of marriage; verdict of guilty as charged; Saturday fixed for sentence.

State of Oregon vs Michael Flanagan; larceny in a dwelling house; verdict of "not guilty."

BOSS TWEED and others of the Tammany Ring have been stirred up very lively of late, but that is nothing compared with the excitement caused by Kohn & Fisiol, who have stocked their large clothing establishment, No. 91 Front street, with goods for winter wear to suit all classes, not only in style, but in price. Seeing is believing, so go and examine their stock.

S. L. Stone is giving more toys and fancy goods for six bits than any house in town does for one dollar.

LOCAL BREVITIES.

The fair of the St. Vincent de Paul Society will open this evening at the Armory.

A grocer's sign up town announces "Extra lart for sall heer—Gut Apples and Botaters also."

Two men quarreled on Tuesday and one of them bobbed the other twice in the side—all about a clay pipe.

Charles Hayden, a Penitentiary convict for a year, was transferred on Tuesday to the Insane Asylum.

Yesterday was St. Cecelia's Day, and was celebrated by our Catholic citizens by High Mass at the Cathedral.

The steamer *California* is now daily expected, with a cargo of 300 tons of stone for the Custom-House.

A Springville man came up yesterday and procured a warrant for the arrest of another for stealing a pair of blankets.

There was only one case of drunkenness before the Police Judge yesterday morning. Temperance is gaining ground.

Judge Upton yesterday sentenced John Wilson and D. Stimson, convicted of grand larceny, to one year each in the Penitentiary.

The Managers have "respectfully invited" us to attend and give thanks at the ball at the Chemeketa House, Salem, on the 30th. Thanks.

Our cotemporaries are trying to get the doctors to organize a Medical Society. We haven't heard from the doctors.

A lot of the Salem folks have looked at Bachelder's panoramas, and have published their opinions that the pictures are "purty."

BUSINESS NOTICES.

THE PACIFIC BOOT AND SHOE HOUSE.—Messrs. Protzman, Gilliham & Co., as will be observed by their card in another column, are determined to keep ahead of everything in the boot and shoe line. They have recently filled their store with all the latest styles in ladies, gentlemen's and childrens wear. The "Champion Boot," manufactured expressly for them, is decidedly the thing for those who do a great deal of walking this damp weather. It is only necessary to read their advertisement to glean further valuable information.

STEINWAY PIANOS.—We call the attention of our readers to the card in relation to the manufacture of the celebrated Steinway piano. The sales would appear very large. Sole agency for the Pacific coast, M. Gray, San Francisco, branch house corner of Alder and First streets, this city.

REDUCED PRICE FOR BI-VALVES.—Mr. Keith advertises the prices of oysters reduced to such a figure that even the poorest man in town can afford to eat 'em. At such prices no man should be without his oyster.

ASTHMA, BRONCHITIS, nasal catarrh and all affections of the throat and lungs are treated successfully by the new and scientific mode as practiced by Dr. Aborn, corner Third and Morrison streets.

WORK of every description in the house finishing line will be done at short notice to the best of satisfaction.
PAUL RICHTER.

KRIS KRINGLE'S headquarters is at S. L. Stone's, next door to the Postoffice.

OFFICE M. W. G. M., I. O. O. F.,
SILVER CITY, Oregon, Oct. 14, 1871.
To the members of the I. O. O. F. of the jurisdiction of Oregon:

BRETHREN:—In view of the late calamitous fire in the city of Chicago and the consequent sufferings of our brethren in that city, each Lodge is hereby recommended to make such donations for their relief as they may feel themselves able to do, and that such amounts be forwarded to Bro. J. Kreamer, Chairman of the General Relief Committee, Portland, Oregon, for immediate transmission.
E. L. BRISTOW,
oct13d1m. Grand Master.

WILLIAM DAVIDSON.
REAL ESTATE DEALER.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. M. C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven *superior* to any method we have ever known. And that although the *first* cost may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before increasing any expense, we give a cordial invitation to call at our homes and interview her pupils.

For reference see advertisement.

CARD.

MR. F. X. HAST, of San Francisco, having received THE FIRST PREMIUM FOR FINE CUSTOM-MADE BOOTS AND SHOES, at the California State Fair held at Sacramento in Sept. 1871, is prepared to receive orders for the FINEST LADIES' and GENTS' WEAR Prices, from $5 to $25. Measure taken for the same at
HAST & RICHARDS',
o11d2p1f 111 Front St., Portland, Oregon.

Arrest Decay.

When a plant or a tree begins to decay it must needs die. It cannot be revitalized. But it is not so with human beings. A human ruin can be repaired, strengthened, restored, though a brown leaf or a withered blade of grass can never be made green again. In the autumn of life, or even in its winter, when nature seems to be giving away under the pressure of years, it is still possible to retard the progress of decay, and to lend to age more than its wonted vigor. As a means of promoting this object, Hostetter's Stomach Bitters is unquestionably the most potent of all restoratives. It will not make the old young, but it will prevent, lessen, or smooth the infirmities which are the usual accompaniments of the decline of life. For debility and lack of nervous power, from whatever cause arising, it is the medicine that of all others before the world, best deserves the name of a *specific*. In purity, in invigorating properties, in its adaptation to weak stomachs and feeble organizations, it has no competitor among the tonics of the pharmacopœia, nor among proprietary remedies. Besides its strengthening principle, it possesses regulating properties of the highest order, and as an anti-bilious medicine is far preferable to any of the preparations containing mercury. Time has shown that for physical decay, nervous debility, dyspepsia, bilious disorders, and intermittent fever, Hostetter's Bitters is a remedy without a rival. This is the season of the fall of the leaf; let it remind the old, the feeble, the sickly, to invigorate and regulate their systems with this great vegetable tonic and alterative.

ON MARRIAGE.

HAPPY RELIEF FOR YOUNG MEN from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and circulars sent free in sealed envelopes. Address HOWARD ASSOCIATION, No. 2 South Ninth St., Philadelphia, Pa. se16dawly

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!
ASSETS.....$17,000,000!
ISSUED 9,925 POLICIES IN 1870.
Insuring Over $27,000,000!
WM. H. BEERS, Vice President and Actuary. | MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although equitably claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

ÆTNA
LIFE INSURANCE COMPANY,
OF HARTFORD, CONN.
FOUNDED IN THE YEAR 1820.
Adopted Mutual System in the year 1861.
ACCUMULATED CAPITAL OVER.....$16,000,000.
ITS ANNUAL INCOME OVER.....6,000,000.
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY.....100,000.
NUMBER OF POLICIES ISSUED IN 1870.....11,217.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!
IN INCOME, IN SOUNDNESS,
IN ASSETS, CHEAPNESS,
IN NUMBER OF POLICIES, PROMPTNESS
IN AMOUNT INSURED, AND SUCCESS.
IN SOLIDITY AND STRENGTH.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna Life:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

Agents for the Sale of Blocks and Lots in
HOLLADAY'S ADDITION
TO
East Portland!
TO OUR PATRONS AND THE PUBLIC GENERALLY desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Stock in the entire tract but what a

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Lucia's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street Improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

STITZEL & UPTON

FINANCE AND COMMERCE.

WEDNESDAY EVENING, Nov. 22, 1871.

Gold in New York—110¾.

Portland Legal Tender quotations, 90c buying, and 90½@90c selling.

Yesterday we noted the fact that the Bank of England had reduced the rate of discount to 4 p. c. This was fully expected on the part of the financial community everywhere, and consequently surprises no one unless it be in the fact that the rate was not reduced sooner. The rate of discount in the open market in London has been from ¼ to ⅜ p. c. less than in the Bank for fully a month. The increased rate some time ago of the Bank of England caused a flow of gold from France to England and stopping to a great extent the flow from England to Germany and as a consequence the last steamer touching on by mail gave the condition of the Bank in as good a position as it has been at any time within four years when the rate of discount was 2 and 2½ p. c. So intimately connected is the English money market with the prices of all commodities imported and exported into and from the United Kingdom that its course is watched with the greatest interest by the commercial community everywhere. Already do we perceive its importance in the Liverpool quotations for Wheat, for notwithstanding the imports for the first seven weeks since harvest—August 25th—show an increase over the corresponding period of last year of 2,166,818 cwt., still with an easier money market and the rate of discount lowered, prices are quoted higher.

The following comes in our public despatches from New York to-day:

Gold, 110¾. Bonds, 115@114¾. Wheat in Liverpool, 12s. Sterling, 9½@9¾.

The steamer *Orizimbo* was hauled over to the other side this afternoon to take in cargo of produce. She will probably get away to-night or early in the morning.

The steamer *Ajax* is to leave San Francisco, bound up, on Friday.

We were shown some Eastern Lard, Bacon and Shoulders. The Lard is not as good as Oregon, owing to the fact of its being differently refined which takes from its quality. The only thing that would recommend it to those who go more on appearance than merit, is the neat packages in which it is in. It is held the same as Oregon, 16c p. lb. The Bacon and Shoulders being in cloth we were unable to see, but it felt solid, which is a merit. In San Francisco Oregon Meats are quoted from ½ to 1½c p. lb higher, but the same price is asked for this as do our packers for it.

While the Chicago fire has used up more Insurance Companies than any similar calamity that has ever happened in the country, it has been a positive benefit to those who were able to survive the strain. The *Journal of Commerce* has the following as to the effects on the companies in New York:

The first-class Insurance Companies have been so overwhelmed with business that with the utmost devotion on the part of their entire clerical force they have been unable to destroy their policies as rapidly as desired. As it is not the Company that has the largest absolute capital which for obvious reasons always the best security, so it is not the one that takes the greatest volume of [illegible] that will always pay the largest dividends.

The San Francisco Insurance Company [illegible] a general improved business, as have all the [illegible] of the different Companies and the Home Mutual Branch in this city.

By politeness of Messrs. Knapp, Grant & Co., of San Francisco, agents in that city for the Oregon Packet Line, we are enabled to give below the manifest of the bark *Rival*, now due at this port. In their letter to us they state that the *Rival* arrived in San Francisco Nov. 4th, discharged cargo by the evening of the 6th, and was loaded for this port with a cargo of [illegible] merchandise of 600 tons by the 11th, being the quickest despatch on record of any vessel plying in the Oregon trade.

For the [illegible] of 1868-9 we exported 124,000 sks Oats; for 1870-1, 4,400 sks. The cause of such a large amount being exported in 1868-9 was the high prices ruling in San Francisco, and that the larger portion was the accumulation of one and two years. Last year the crop was short and the home consumption larger, consequent upon the commencement of our present railroad system, and the exports were less. This year the yield is less than last year by at least 33⅓ p. c., and some give it at 50 p. c., with the home consumption largely increased. The O. & C. R. R. are employing more teams than last year, the Oregon Central, as also the North Pacific Railroad have commenced work, and employing many teams from all parts of the country. We hear of increased number of horses to be fed as well as an increase in this city. Our estimate of the number of sacks less this year than last owing to the failure of the crop, is not less than 10,000, and our estimate for the number to be imported up to harvest of 1872 to meet this fair demand—unless, as in many cases reported to us, Wheat is very generally used instead of Oats in many localities in the interior—will not vary far from 15,000 to 20,000 sacks. Next year the consumptive demand will be larger than for a few, and our farmers should see to it that our wants are not supplied by our sister State. Instead of being an importer we should be able to export large quantities, as our Oats command, or did when we were an active operator, more in the California market than did the general average of California oats.

Produce Market.

WHEAT—We have nothing new to offer in regard to the market. The O. & C. R. R. warehouses, as also many freight cars, are full, owing to the lack of transportation to take it to [illegible]. The *Orizimbo* will take on several hundred tons, as will also the *John L. Hyde*, which will be one of many vessels to load from the interior. We quote market at 92 3/0@2 25 per cental sacked.

FLOUR—The late concession made in San Francisco on outside brands has not as yet affected prices in this city of outside brands. The general opinion prevails that our millers and dealers could [illegible] on invoices to Victoria and Sound ports. We quote market for extra of standard brands at $7 50@8 00; for [illegible] for examples of standard brands and extra of outside brands.

OATS—The 830 sks brought up by the *Orizimbo* was for Government, and as such will not be thrown on the market. There were unloaded at Astoria. We quote market at $1 45@2 55 ₩ cental, sacked.

POULTRY—Receipts of Turkeys and Geese are free with an active demand for all coming forward at current rates.

BUTTER—We note a continued scarcity of extra choice to sell, which would command on the spot in jobbing lots from 35 to 40 cents ₩ lb; other descriptions are unchanged from former quotations.

General Merchandise.

DRY GOODS—Cottons of all descriptions have been advanced from 10 to 20 per cent., over old rates, as also all Eastern Clothing and Woolen Goods. Oregon fabrics remain unchanged.

HARDWARE—The market continues to show great firmness, with a hardening tendency in many articles.

COFFEE—Though no actual changes have occurred, still the market favors buyers.

Daily Receipts of Produce.

Per O. & C. R. R.—100 bbls flour, W. & M.; 100 bbls flour, S. & B.; 600 ctls wheat, H. F. & Co.; 400 bbls flour, S. Brus. 350 [illegible], O. T. & Co.; 3 bxs eggs, 12 sks dried apples, A. & T., 40 sks oil cake meal, H. & G.; 40 sks oil cake meal, G. O. H., 12 sks wool bags, W. B.

Per *Ajax*—114 sks wheat, S. & B.; 371 sks wheat, H. F. & Co.; 149 sks wheat, K. Bros.
